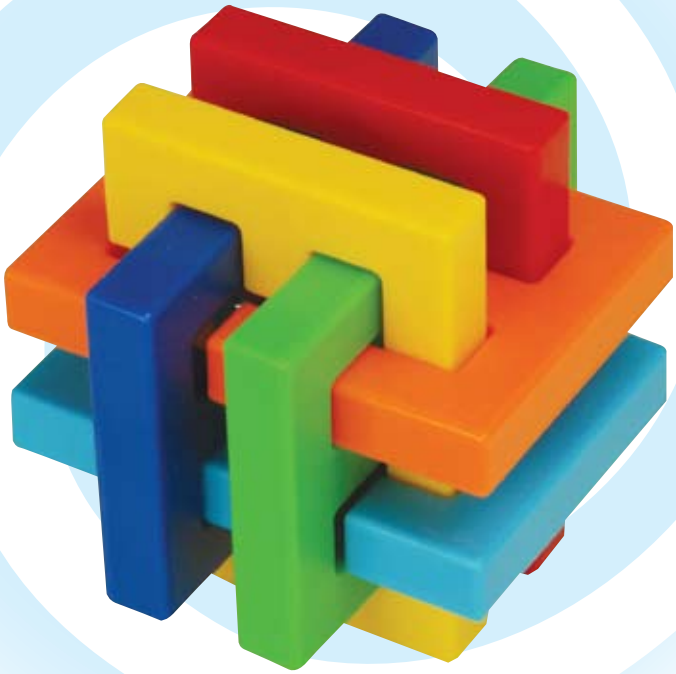
# gordian's KNOT™

## BRAINTEASER CHALLENGE



### The World's Toughest Brainteaser Challenge

In ancient Macedonia, the great Oracles proclaimed that whoever could solve the Gordian knot tied by Midas would rule the world. For 400 years the knot remained a mystery until Alexander the Great solved it and went on to rule great kingdoms. Today the classic tradition of the world's toughest puzzle continues! Our colorful modern variation features just six interlocking pieces but takes 69 different moves to take it all apart. The object is simple: Slide the six pieces past each other to take the puzzle apart, but beware, there are always one or more pieces that will easily move. Th e challenge is in knowing which is the correct choice! A step-by-step how-to booklet will jump-start the most perplexed AND help them put the puzzle back together once it is solved. Gordian's Knot™ is certain to become the latest craze and is a must-have for all game and puzzle sections!

**Ages 8 to adult**
