What is Solitaire Chess?

Solitaire Chess™ is a single-player logic puzzle that uses traditional chess moves on a 4x4 game board. Players exercise sequential reasoning skills as they plan ahead to eliminate all but one piece.

HOW TO PLAY

Players get 10 chess pieces, two each of the Knight, Rook, Pawn and Bishop, one each of the King and Queen, and 60 challenges. Set pieces on the board according to the challenge cards and proceed to capture each piece, but only by using the same moves allowed in traditional Chess. Players have to capture a piece with every move, so the game is fast-paced and always exciting.
